DETAILED ACTION

Election/Restrictions

1. Newly submitted claims 68, 69, 72, 73, 76 and 81 are directed to an invention that is independent or distinct from the invention originally claimed for the following reasons: Claims 67 (I and IV ("display a menu of the plurality of applications associated with the private network exchange to which the user is authorized to access" -similar to claims 64 and 65 drawn to invention IV)), 68 (III), 69 (II), 72 (II), 73(III), 76(III) and 81(II and III) are drawn to non-elected inventions. Claims 70, 71, 74, 75, 77-80 appear drawn to elected invention I. However they are dependent upon a non-elected independent claim.

Since applicant has received an action on the merits for the originally presented invention, this invention has been constructively elected by original presentation for prosecution on the merits. Accordingly, claims 67-81 are withdrawn from consideration as being directed to a non-elected invention. See 37 CFR 1.142(b) and MPEP § 821.03.
